4. Price

5. Who Stands Behind What

Installation warranty: _____ will correct a defect in its own installation work during that period. The client understands that the items listed in section 3 were not supplied by the provider. Any warranty on those items is between the client and the manufacturer or seller, and the provider is not responsible for a defect in the items themselves or for the cost of replacing them.

6. If an Item Cannot Be Installed

The provider will check each item on site before installing it. The provider may decline to install any item it believes is the wrong size or type, damaged, unsafe, or unsuited to the job, and will tell the client why. If an item cannot be installed, the client may choose to get a suitable item and reschedule, or to have the provider supply one at the provider's usual price. The charge in section 4 applies to a visit that cannot be completed because of an item the client supplied.

7. Signatures

The client has read this form, confirms the items in section 3 are the items to be installed, and agrees to the price and terms above.
